Patsy Williamson, Aug. 27.
Charles Lee Woody, Aug. 26.
Mike and Doug Mitchell, Aug. 29.

Hopeful Homo Sapiens

The human being is an incurable optimist. He believes that he has a pretty good chance to win a lottery prize but that there is scarcely the slightest chance of his getting killed in a traffic accident. -The Jackson, Miss., State Times.

An Air Force pilot has flown an experimental rocket plane to a new world's speed record of about 1,900 miles an hour.

Egypt's nationalization of the Suez Canal has whetted the appetites of nationalists in other Arab states for Western oil installations.

Sunbeam Focus Week Observed At Liberty Baptist Church

Sunbeam Focus Week was observed at Liberty Baptist Church on Wednesday afternoon, August 15, at which time each member brought a gift for the August Christmas Tree. These gifts will be sent the missionaries who are serving the Indians on our Home Mission Fields.

The Counselors for this group are as follows: Mrs. John C. Cole, Mrs. Ray Ferguson, Mrs. David Reed, Mrs. Lee Mays, Mrs. [illegible] Wooldridge, Mrs. Terry Bass, Mrs. Heeln Lane Francis, Mrs. R. Harwood, Jr., is Young People Director.

This group, whose membership numbers 38, is divided into two groups—from 4 years of age to 8 years, and from 9 years of age to [illegible] years of age.

FARM NEWS

By J. A. Smith, County Agent

The way you milk your cows, and ...ns your herd, makes a big dif...ce in the control of mastitis. ...is fact is clearly pointed up by ...recent demonstration program ...ld out in 12 herds in four ...unties.

...olved in the program were ...en which mastitis was an im...t disease problem at the time, ...t had severe outbreaks in the ...st, and some on which it was ...t but not severe. After an ...survey, recommendations were ...o reduce the incidence of the ...

...e eight months elapsed during ...the owners were to put the ...mendations into effect. A ...survey was then made of the ...

...herd of 37 milking cows had ...percent of the quarters pro...abnormal milk, and disease-...ing bacteria were identified ...3 percent of the quarters on ...ory examination. Manage...practices and milking practices ...poor. Changes were recom...ed and rigidly followed by the ...Identification of the bacteria ...ed the veterinarian to select ...proper treatment. The second ...showed only 13.6 percent of ...quarters producing abnormal ...and no quarters with disease-...ing bacteria.

...another herd of 25 cows, 17 ...of the quarters were pro...abnormal milk and 31 per...had disease-producing bacteria ...on the first survey. Recom...ded changes in management ...milking procedure were not a...ed. The animals were not treat...on the basis of laboratory identi...of the bacteria. Consequently, ...improvement had been made ...the second survey was made. ...verall, there were eight herds ...that cannot be avoided in conducting tests.

Remember the DHIA test is accurate for one day's milk. The herd test is an accurate test of several samples taken on different days. It is more unusual for a plant test to be exactly the same as a DHIA test than it is to be slightly different. Unless the difference between the two tests is greater than 0.5 per cent, there is usually nothing wrong. If the difference goes over 0.5 percent butterfat, ask for an explanation.

CALF, YEARLING FALL SALES

Some 15,000 yearlings and 25,000 feeder calves are headed for the auction ring at this fall's series of organized sales in Virginia.

The sales are planned for: Dublin, Sept. 5; Bristol and Buena Vista, Sept 19; Madison, Sept. 20; Chris...burg and Monterey, Sept. 24; Orange and Abingdon, Sept. 25; Charlottesville and Dublin, Sept. 25; Culpeper and Wytheville, Sept. 27; Staunton, Sept. 28; Winchester, Sept. 29; Roanoke, Oct. 1; Monterey, Oct. 2; Buena Vista and Staunton, Oct. 3; and Lynchburg, Oct. 4.

Also: Bedford, Oct. 5; Harrisonburg and Abingdon, Oct. 9; Richmond and Dublin, Oct. 10; South Boston and Jonesville, Oct. 11; Winchester and Tazewell, Oct. 12; Christianburg, Oct. 15; Abingdon and Front Royal, Oct. 16; Tazewell and Fredericksburg, Oct. 17; Dublin, Oct. 17; Wytheville and Petersburg, Oct. 19; Monterey, Oct. 22; Front Royal, Oct. 23; Buena Vista and Bristol, Oct. 24; Winchester, Oct. 26; Abingdon, Oct. 30; Buena Vista, Oct. 31; and Culpeper, Nov. 8.

LYNCHBURG FEEDER CALF SALE REQUIREMENTS

Appomattox cattlemen interested in consigning cattle to the Lynchburg fall sale must meet requirements listed below:

1. **To consign heifers**—Bangs and T.B. herd tests are required within the year Sept. 30, 1955-Oct. 1, 1956.
2. **To consign steers** — No herd and T.B. tests are necessary.
3. **Vaccinations:**

a. Heifers must bs vaccinated for Brucellosis within age required by State law.

b. Steers and heifers required to be vaccinated with Hemorrhagic Septicemia bacterin and Blackleg withing 30 days of sale and completed 21 days before sale.

Requirements applying to steers and heifers:

1. **Dehorning and castration** — Must have been completed in time for the wound to be healed before sale date.
2. Minimum weight 300 pounds, maxium 700 pounds, and calves should not be weaned before sale.
3. All calves must have been aired by a registered bull. Accepted grades: Fancy, Choice, Good and Medium. No crossbreds accepted, except Shorthorn-Hereford cross — these calves will be penned according to dominating color markings.

No dwarfs; Blind (one eye or both eyes); Lame, sick, bobtails (must have bush) or any deformity will be accepted.

4. Rejected calves either by weight or other causes, must be removed from yards by consignor the day delivered.
5. Each consignor shall furnish one bale of hay for every 5 head or less consigned. If hay not furnished it will be purchased and the cost deducted from consignor's account.
6. **Heifer Consigners Guarantee**— A 15 percent refund to the purchaser for each heifer or heifers sold by said consignor.
7. Pink sheet and schedule of truck arrival at sale will be mailed as soon as nominations are in.

TOBACCO APHID

We have found in some tobacco fields in Appomattox County, the tobacco aphid, sometime referred to as the green peach aphid. This type insect is the some thing most farm people know as plantlice. Tobacco growers should inspect their tobacco to determine the presence of this insect and if it is in sufficient population to warrant control, the following may be used.

Use a malathion spray, 50 percent emulsion concentrate, one pint in 50 galons of water, at the rate of 40 to 80 gallons of a parathion spray, 15 percent wettable powder, 1-2 pound in 50 gallons of water; or 15 to 30 pounds of one percent parathion dust. Apply dust or spray evenly over entire plant. Repeat in five days if necessary.

Do not prime tobacco within five days after an application of parathion.

TOO REALISTIC

Oklahome City, Okla. — Twice a week Lt. Tom Logan of the Oklahoma City Fire Department delivers safety lectures at the city airport. Recently, while advising on what to do in case of heart attack, a passenger suffered an attack in the waiting room. Then, just a few days later, while Logan was speaking again, a refrigerator gas tank exploded in the basement of the airport. His subject that time was, "Expanding gases and the danger of explosion."

20,000-YEAR OLD TEETH

Baintree, England — Teeth from an animal that died some 20,000 years ago were recently found near this Essex town. The teeth weighed more than two pounds.

Vera

Vera, Aug. 20.- We are having the hottest weather of the summer and it is awfully dry.

Week-end guests in the home of Mr. and Mrs. T. C. Harvey were Sandra Kay Harvey, Mr. and Mrs. Willie Warters, Mr. Jimmie Harvey and family.

Mrs. Lester B. Harvey visited in the home of Mr. and Mrs. T. C. Harvey on Tuesday.

Sandra Kay Harvey is spending some time with her grandparents, Mr. and Mrs. T. C. Harvey, Sr.

Mr. and Mrs. T. C. Harvey visited in the home of Mr. and Mrs. Robert Coleman on Thursday night.

Farmers are busy filling their silos this hot weather.

Miss Harriette Harvey returned home form Richmond on Friday.

Visitors in the home of Mr. and Mrs. L. H. Watson on Saturday night were Mr. and Mrs. T. C. Harvey, Harriette and Sandra Kay, and Mr. and Mrs. Grover Beasley.

Mrs. T. C. Harvey, Mazie and Harriette visited in the home of Mr. and Mrs. Homer Reynolds on Thursday night.

In FASHION Now

The boffant hair line will be the latest look in hair styles this fall, according to the experts, Hair will be fuller but not long.

The direction of the hair is up on top of the head and out wide on the sides. It will be waved into a soft overall effect of full-blown and cloud coiffures.

It is said that the exaggerated "high tide" lines in clothing fashions, the high waist, the molded midriff, the high hands, belts and other details, which define the new silhouette and focus attention to the head, has made this extreme change necessary.

As always, careful coordination between your clothing, millinery and coiffure will be the test of a well-dressed woman.

The specified hair length will range from four to five and a half inches at the crownareas, from one to three inches at the nape.

The bouffant style, said to be most becoming to more women, will be one that floats forward and is face forming.

For those whose hair will fantail toward the back, there will be short adaptations of the Psyche-knot or Empire Silhouette.

You get more car when you buy it . . . more dollars when you sell it! Chevy has the highest resale value of the leading low-priced models.
Why people who used to buy higher priced cars are changing to Chevrolet
More and more buyers are deciding that they prefer a sweet handling Chevrolet to a big, unwieldy high-priced car!
When you consider Chevy's reputation for performance and roadability, you wonder why anyone would pay hundreds of dollars more for a higher priced car. Well, a lot of people have been wondering the same thing, and the result has been a big switch from high-priced cars to Chevrolet. Of course you save plenty, too. Come in and sample the fun and get the facts!
